

NARESP Job Analysis and Industry Survey Section Information

Thank you for taking the time to share your experience as a real estate support professional. This data will allow us to develop the foundation for the Certified Real Estate Support Professional (CRESP) certification. Please use this tool to help clarify some of the questions included in the survey.

Demographics

In this section, we are looking to uncover information about you. Please be as concise as possible, choosing only one option for questions 1, 2, 3, 5, and 10. Questions 11 and 12 are completely optional, as stated. This data will help us paint a picture of who our professionals are, where they come from, and how they are compensated.

Education, Training & Experience

In this section, we want to understand how you have come to understand your role and what education and support is required in order to perform your role efficiently. This data will allow us to determine how this career is currently learned and understood, as well as anticipate the type of education and content that may be required in the future.

Knowledge, Skills & Abilities

In this section, we are exploring what specialized skills and knowledge are required in order to be successful in your role. This data will give us a general understanding of what qualifies one to perform the duties of the real estate support role.

Essential Duties & Responsibilities

In this section, we are digging into the exact tasks related to accomplishing your job. This data will allow us to understand exactly what is required of real estate support pros in the work environment.

Tools & Resources Required

In this section, we would like to gain an understanding of what materials are needed for real estate support professionals to perform their duties. This data will allow us to identify which types of technology, and other items, need to be mastered in order to perform your job as a real estate support professional.

Professional Environment

In this section, we would like to know the conditions in which you perform your job. This data will allow us to anticipate the needs of future professionals.
